WORLD'S FIRST GRANITA and SMOOTHIE VENDING MACHINE

quinzee™ is the world's first fully automatic vending machine for frozen drinks. The quinzee finally enables the automatic vending machine industry to offer a large variety of frozen granita servings dispensed from a stand alone machine.

quinzee's unique, proprietary drink preparation process uses instant powders and syrups to prepare a large variety of frozen drink servings in an on-demand, fully automated process.

The **quinzee** finally opens a new & desirable market segment for vending machines operators and for branded drink manufacturers around the world, as on-the-go users can finally enjoy a wide variety of frozen drinks in various locations from an automatic vending machine.

The **quinzee** offers a selection of 8 frozen drinks flavors made instantly from a variety of 4 bag-in-a-box syrup packs and 4 powder canisters.

An 11oz serving preparation process takes less than one minute and includes an automatic dispensing of a cup and a straw followed by the frozen drink's flavor selected, after which the machine is immediately ready for next drink's order. An automatic cleaning cycle is integrated as well.

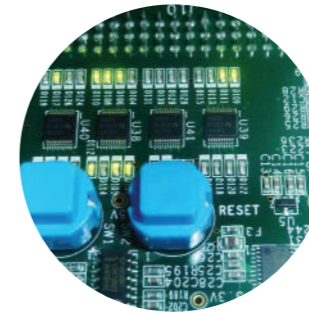

Our flavors variety includes:

frozen yogurts, frozen iced tea, fruit smoothies, vanilla & cookies, frozen latte's, frozen energy drinks, frozen sugarless drinks and many more...
